People's Republic of China

Your Excellency President of People's Republic of China,

Let me express my concern regarding the case of Liu Ping, human rights campaigner who was sentenced to more than six years in prison in 2014, after organizing an event which called on the government to step up its fight against corruption. Liu Ping claims she has been tortured while detained, and there are fears that she is not receiving the medical treatment she requires in detention.

I respectfully call on you to:

- Release Liu Ping immediately and unconditionally, taking into consideration the ill-treatment and imprisonment Liu Ping has suffered for peaceful exercise of her rights to freedom of expressions and association, and the unfairness of her trial.

Thank you for your attention regarding this important case.

With kind regards,
