

Dear Mr. President
Joe Biden
The White House
1600 Pennsylvania Avenue
N.W. Washington, DC 20500
USA

You have an opportunity to close the military prison at Guantánamo Bay once and for all.

The detention facility at Guantánamo continues to hold around 40 Muslim men indefinitely, most without charge, and many of whom were tortured by the US government. None has received a fair trial. The treatment and imprisonment in Guantánamo are glaring human rights violations your administration must end now.

Toffiq al-Bihani is one of five detainees at Guantanamo who have been cleared for transfer to other countries for many years, yet remain imprisoned indefinitely.

He was tortured by the CIA before he was sent to Guantánamo in 2003, where he remains without charge or trial. He was cleared for transfer in 2010.

Mr. President. Close Guantanamo, and ensure the transfer of all cleared detainees to countries that will respect their human rights.
